

Strategic Priorities for 2020-2021

- I. Academic Rigor and Readiness: Increase the academic support for students to be TSIA compliant. In partnership with IHE chairs and faculty, identify student needs to ensure preparedness and success in college courses.
- II. Curriculum Support – Social & Emotional Support: Identify support systems for students to understand and manage emotions, set and achieve goals, develop healthy relationships, and make informed decisions with the IHE system and area providers.
- III. Curriculum Support – Master Schedule: Develop a master schedule (each semester) that compliments both the college and high school needs. Develop a schedule that provides the students the best opportunity to take advantage of being located on the college campus.
